

## Principals Environmental Leadership Retreat

Principals are invited to join us for a 3-day adventure on the Bay. Participants will learn the basics of environmental education and how to use it to meet curricular objectives in a way that engages students. We will discover hands-on learning activities on the Chesapeake Bay and discuss how to implement a successful environmental education program at your school. You will be able to network and share ideas with other principals from around the state.

### Principals comment about their CBF experience,

“Truly, I have seen the value and life-changing potential that hands-on programs, like the ones at CBF, have to offer anyone who takes part in them...I cannot speak highly enough about the programs...”

- Stephen Castle, Asst Principal at Colonial Heights Middle School

The Chesapeake Bay Foundation is supported by the National Oceanic and Atmospheric Administration (NOAA) and the National Geographic Society.
